

Bhog Message 1..1.2024

With the thought to Offer bhog to Baba & Baba definitely invokes all of us to the subtle regions to offer bhog. I on behalf of the family here offered bhog to Baba & Baba with His love, drishti accepted bhog with love. Baba said it is my lovely family.

Today Baba was addressing us as His lovely family. So Baba said that my lovely family is always one who is like the Father. So I said like Father because we are always like Father. Because one of the important qualities of the Father, He is the Bestower. He is the one who constantly gives & everyone in the family is also happy, beautiful sanskar at Confluence Age to give, to serve. Baba said this sanskar of serving helps you to claim your inheritance but also not only inheritance but also you claim the title of being a Master. So you claim all the treasures from Baba as your inheritance. After a few moments Baba said the new year has begun. So everyone's thoughts are how can we start our year? so I looked at Baba & said, Baba I woke up with the thought to look at that I have to get all 3 certificates. Which one should I get first? Who will give me the certificate first? Is it Baba will give, should I ask the family to give or myself? Let me hear, self. First I give to myself? Who will verify that? Who should give first? I give myself 80%, 85%.

I remember one time Dadi Prakashmani told us that we all have to give ourselves what, how much percentage? So then she gave me the responsibility to get all the answers. So when I looked at hers, she gave herself 90 or some thing. So I said, no you should give yourself more. And there were some who gave more. So many came to me, give us back we want to look at it again. So I have to verify from Baba. So what about getting from Baba first? And then from self & then from others. We always think what others think of me. What will they say for me, what will they say for me? But what Baba thinks of me? What Baba says for me? Everyone should constantly remember that your certificate & Baba said, the way Baba gives certificates is royalty of purity. Purity everyone knows.. free from vices. But what is royalty? A royal person has certain maryadas that is why

even when our degrees of viceless, 16 celestial degrees in the end, it says Maryada Pururshottam, all the maryadas. It's not 3 things; there are principles, there are maryadas, there is Shrimat & that creates our personality of royalty. Because you have to be in the royal family which we all want to be. How many of you want to be in the royal family? Everyone! So what is required? our divine maryadas, accuracy in following Shrimat. So Baba gave the certificate based on royalty. Purity changes into royalty. And that royalty & purity is what is divinity! We all have to be divine. So this year everyone pays attention to see that I get a certificate from Baba & then I give to myself. For that there are 2 things; always constantly be joyful, happy, sweet. How many times during the day, I got a little bit forceful, a little bit upset, or a little bit of... I remain sweet. That's why we say Sweetest Baba. Baba also says, my sweetest children. So how many of you will take this resolution? I will always be sweet & joyful. we have to give happiness to everyone, like Baba said in the morning Murli. Make everyone happy. I don't know what the translation is "suskh do" (Give happiness to all). Then you get the certificate from the family & that certificate is, she is or he is a true renunciate & a server. something is lacking in renunciation could be seen in service also that means in service, a little bit of ego, forceful, stress, tiredness because of lack of some kind of renunciation. so then you get certificate from others. Every child of Baba, every family member should experience love.

Everyone has surrendered to Baba & Baba's service is world service, not anyone's service. I am not serving anyone, serving Baba. so sometimes a little bit of arrogance, a little bit of role consciousness, a little bit of authority, no one has any authority. Baba whom I have given my life to. So constantly renunciate as a server. Should be the certificate, which I should get which you all should. Because service could also become like a career, you can do as a business. Seva, we are servers. So I had a little chit chat with Baba about certificate & then Baba said, anyway for this year, every step we have to follow Brahma Baba specially in the month of January. How at every step Baba took, he moved towards the stage of being double light. Baba is ready to take all our burdens. He said, give me, give me. Who would like to take anyone's burden? It is only my Parents, my Father & He does.

So then in the end Baba is looking at everyone & again asking, are you okay? Let me see hands. Everyone will say yes to Baba.ok,so we have to claim our certificate from Baba. Once you claim that you will be able to give yourself very easily & you will hear from others also. Baba gave a lot of love,have determination for this year. Whatever pure thoughts you have bring them into practical. Then Baba gave lots of love & remembrances to each one.

Om Shanti
